Introduction

To choose to work with Venus in this way is to choose to deepen your relationship with your own personal Sacred Feminine rhythms.

Venus has an 18-month cycle that reboots every time she retrogrades. There is a cyclical process of Release & Reclamation that we do throughout her cycle. It is an opportunity to connect with your own Heart to decide what is truly important & valuable in your life, at any given moment.

Venus has a larger 8-year cycle that happens which suggests that we are deeply supported to consciously shift our values & priorities in small, personal ways every 18-months and on a much larger, life-changing scale, every 8-years.

Co-creating with this rhythm of Release & Reclamation & paying attention to how it feels when she activates one of your planets, will help you master your magnetics so that you are naturally repelling what you *do not* want in your life, while also magnetizing into your life all that you *do* want.

The whole idea of connecting with Venus' rhythm is to condition you to the on-going, evolutionary process of consciously shifting your personal values & priorities on a regular basis. Life can get in the way, causing you to put important things on the back-burner but when you are in relationship with Venus, you do that a lot less and life becomes much more sacred & rich, in the moment.

Now, with your Personal Activations to guide you, learning which planets affect you in which ways when they are interacting with Venus becomes a powerful tool in your personal Karmic Tool KIT.

When Venus in the sky contacts any planet in your chart, you can consider this a meeting with your most trusted advisors & a good time for cultivating or designing your own ritual, ceremony or prayer to do on the **day before, day of or day after** that activation date (you can extend that to a week).

When you consciously co-create with Venus, you engage with the Sacred Feminine within & around you. Learning her natural rhythm, and how she feels as she interacts with your personal chart, will serve you well.

Your Personal Activations APRIL 2018

Venus ~trine~ Your Jupiter: (6.8.2017 ~ 12.27.2017 ~ 4.2.2018)

This is usually a pleasant energy, although short lived. This is a good time to enjoy some kind of social activity. No pressure – just easy, laid-back fun. It can make you prone to laziness or excess, but only if you're already prone to it. Otherwise, if you are typically busy and constantly on the go, this energy gives you permission to kick back a little and release the usual pressures to produce. Take some time out to 'smell the roses' or at least reflect on all that you have accomplished and give your Self due credit for coming this far. This is a good time to travel, go on a vacation or take a short trip. This energy tends to bring forth earned blessings. Take a moment to give thanks to the powers that be which brought you to this point!

Venus ~sextile~ Your Mars: (6.13.2017 ~ 9.25.2017 ~ 4.5.2018 ~ 7.16.2018)

This energy is good for creating the balance between self & other. This energy is good for trying new things & meeting new people, if/when possible. It creates a good vibe and balanced masculine/feminine energy that allows a nice exchange between self and other. This is a good time to be creative, so be cognizant of any ideas that come to you right now, even if you cannot implement them right away. This is a happy, upbeat energy, so if you can be sociable, by all means, get out and mingle. It's possible to attract someone under this influence as well. The best thing to do with this energy is get involved with new and progressive projects or people. It's all very positive.

Venus ~sextile~ Your Sun: (6.16.2017 ~ 9.28.2017 ~ 4.8.2018 ~ 7.19.2018)

This is a powerful activation because it seems that the Solar Light shines on you in a way that lights up your aura for all to see, and those who can't see it, will feel it! The thing to keep in mind is that radiance is sourced within & being yourself brings that out naturally. Use this time for social gathering or more casual business gatherings, like networking, when people go intentionally to meet others in their field. If you need to sell an idea to one or many, this too can magnetize natural rewards for your authentic kindness and natural beauty. Be your BEST Self and play with a purpose!
